Registered Trade Mark

MIGHT DIRECTORIES
Limited
TORONTO - Canada

The fact that $100,000,000.00 is spent annually for commercial literature proves that advertisers are more in need of education as to ***how*** they should use commercial literature than ***why.***

75% OF THIS PRINTED MATTER TRAVELS VIA THE MAIL.

Mailing List Importance

The expenditure of so much money warrants the use of up-to-date mailing lists, as a fair estimate of the number of changes in the average mailing list in 12 months in Canada is 50%.

To meet the necessity for up-to-date mailing lists our Trade List Department was established 13 years ago and to-day we have a service that can put you in direct touch with any classified business or profession in Canada,—a service that is

Guaranteed 97-99% Correct

Method of Compiling

How Our Trade List Records Are Kept

Every drawer as shown in the illustration of our Filing Vault, (fire-proof steel lined), contains about 1400 cards, there are 610 drawers, making a total of 854,000 cards.

Each trade and profession is classified separately and arranged in alphabetical order as to province, town, and name, or you can secure only those in towns of a certain size and with a specified rating if desired. Therefore, the grocers or physicians of certain provinces or territory can be secured without taking the list for the entire Dominion.

Conveniently Furnished

Lists are furnished in original typewritten sheet form or in card index form.

We can keep them right up-to-date for you at a small additional charge.

We are the only mailing List House in Canada and the only one in the world maintaining a daily revising system.

General Sales Office

You can purchase lists outright or have us address from them.

Write for "MIGHT'S LIST OF LISTS."

Eight Million Addresses 1912

Enough mail matter was directed by this department during 1912 to reach every man, woman and child in the whole Dominion of Canada.

Mail Campaigns—Our Equipment

Typewriting Dept. and Library

Our facilities for getting out large quantities of mail matter are unequalled. 43 typewriters are always at your service and a score of other employees to attend to the folding, sealing, tucking and stamping of your mail matter. Addressing in typewriting or pen and ink.

Accuracy, combined with ability for speed, is a necessary qualification of employees in this department.

Filling in Name and Address

The skill and care used in "Filling In" the names and addresses on our facsimile typewritten letters is beyond detection. They have that personally dictated individual looking appearance. We can match any color ribbon, and any style of type.

Signing Letters

Your letters can be signed in any style of hand writing from the horizontal flourish to the modern vertical style by individuals, or a reproduction of your own signature made by our special signature attachment on multigraph machines.

Facsimile Typewritten Letter Department

Seven Machines, Capacity 100,000 a Day

"That's good clean cut work" is the daily comment on the work turned out by this department.

Quick service is also a feature of this department. We have 7 up-to-date Multigraph Machines to insure our customers against delay.

Delivery can be made same day order received,—if you say so.

Sales Letter-Writing

Many a good proposition fails to bring returns because of a poorly written letter. Two heads are better than one when it comes to real "Salesmanship-on-paper." Yours for conditions—the details—trade reasons, etc.

Ours to depict the usefulness—the convenience—the economy—the word pictures—the eye catcher.
